To Whom It May Concern:

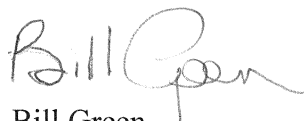

Wolff Bros. Supply, Inc. has been working with Marion Connections to assist in staffing our brand new location in Marion, Ohio. All the staff at Marion Connections are very professionals and helpful with all our needs.

My experience with them has been wonderful. Prior to opening our new facility we relied on Marion Connections heavily, not only to feed us qualified applicants, but also as our pseudo human resources office. I used their offices extensively during our interview process.

The staff does an excellent job of pre-screening candidates to ensure they meet my requirements as well as scheduling all interviews for me before I arrive. The quality of candidates I interviewed is one of the highest I have seen at any employment agency I work with and I am happy to say part of our new staff came from candidates screened and presented by Marion Connections.

I continue to work with Marion Connections to fully staff our new location and would recommend them to any employer seeking candidates as well as any individual looking for a position.

Thank you for all of your help!

Bill Green
Human Resources Manager
