Dear Ms. Sommerlot:

Canteen Correctional Services would like to take this opportunity to personally thank you, Ron Meade, and your great team of professionals for all of the support during this transitional time for our company.

Opening a new business far away from our home base has been a big challenge for all involved. Your agency and your team have been a huge support by helping in many ways including the use of your facility for office space, I.T. support, day to day administrative support, advertising, job posting, recruiting and screening applicants.

Due to your teams efforts I believe we were able to focus on the personal strengths of the applicants in assembling a quality operational team. We could have not done things so well without your support. The Canteen transition team felt they were treated like family, which is just how our company operates.

Once again, a big thank you to all of your team members for supporting this effort. This has been a great partnership.

Thank you,

Victor Rendon  
Regional Vice President  
Canteen Correctional Services
